

**WORKING HARD TO SAVE AND CREATE JOBS
IN NEW YORK STATE**

WHO WE ARE

The Chief Executives Network for Manufacturing (CEN) is a not-for-profit member organization comprised of more than 45 chief executive officers of small and medium-sized manufacturing businesses in 11 counties in the Capital Region (Albany, Columbia, Fulton, Greene, Montgomery, Rensselaer, Saratoga, Schenectady, Schoharie, Warren and Washington). Since its inception in 1987, the CEN has focused on providing a high quality forum for its members to discuss common issues, share knowledge, and develop best practices by drawing on the collective knowledge of its membership.

The CEN provides a variety of programs, networking events, and professional development opportunities for its member executives. As an affiliate of the Center for Economic Growth (CEG), a private, business development organization serving New York's Capital Region and Tech Valley, CEG programs are also available to CEN members.

Small and medium-sized manufacturers must take advantage of opportunities to increase productivity and reduce costs in order to remain competitive and profitable. CEN's mission is to help provide the opportunities, information, resources, and knowledge that will assist members in enhancing revenue and growth.
